

CUBA MOBILIZING HER MILITARY FORCES TO SEND ARMY TO ALLIES

(By Associated Press.)
HAVANA, Cuba, April 12.—On the eve of the first anniversary of Cuba's declaration of war against Germany, Havana presents a festive appearance and, as Sunday is a day of celebration in all Latin-American countries, extensive preparations have been made for a demonstration of loyalty to the entente allies.

Since Cuba's war declaration, many activities, some military and naval, others economic, have been put in motion here to aid the United States. From the time when the German and Austrian steamships seized in Cuban waters were turned over outright as a gift to the United States shipping board, until the present, when Cuba is mobilizing her military resources to send a force of from 10,000 to 20,000 men to France, the whole policy of the republic has been to subordinate other matters to those obligations of alliance which her declaration of war entailed. The Cuban army and navy have been

reorganized, and experts from the United States army staff have estimated that Cuba's military force could be enlarged to a maximum of 100,000 men and maintained at that figure indefinitely.

The Cuban navy has assumed patrol duty not only in Cuban territorial waters, but also far out in the Caribbean, and it has been augmented by a fleet of submarine chasers, while other craft are under construction. In addition to these military and naval measures, many young Cubans are now in the French battle lines as infantrymen and aviators. As instructors for the Cuban cadet corps, which is intended to sail shortly for the French front, the allies detailed two of their leading airmen to Havana, and both these flyers were native Cubans.

Economically, Cuba's crop of sugar this year totals 3,500,000 long tons, which is said to be the great-

est sugar crop ever raised by one country in the world's history. The entire crop has been turned over to agencies of the United States food administration and is being marketed at a figure which, while it brings a diminished profit to its patriotic producers, at the same time has tended to safeguard the world from profiteering and extortion in this essential food commodity.

Besides this, Cuba is developing her agricultural resources in other lines to a great degree; so it is hoped that the necessity for insuring this year on the usual importations of foodstuffs from the United States will be diminished in the months to come.

The Cuban Red Cross headed by Madame Mariana Seva de Menocal, wife of President Menocal, has raised \$1,000,000 for its work, and is now equipping a hospital unit exclusively of Cuban physicians and nurses for service in France.

CREWS OF GERMAN SUBMARINES DOWNHEARTED AND OFTEN NERVOUS

(By Associated Press.)
LONDON, April 12.—Crews of the German submarines are downhearted and often extremely nervous. British seamen whose vessels have been torpedoed and who have thus had an opportunity to observe the Germans bear testimony to this fact. In the official records of the submarine war, says the Manchester Guardian, again and again the submarine crews are described as "very depressed" or "very nervous." Here is one description: "Master and crew all agree and were very much struck by

the pallid appearance of the officers and crew of the submarine, and by their nervous and excited manner. The captain of the submarine was continually urging haste and the officer who was placing the bombs could hardly hold them from the condition of nervous tension in which he appeared to be."

One of the crew who had lived in England, speaking to the boat's crew, cursed the war and wished it was over. In many cases the Germans tried to justify themselves or excuse

themselves to their fellow-seamen. Some of these reports show the hideousness of the German fighting system, but they are all mild compared with the classic story of German bestiality, as in the case of the Belgian prince, where the men were taken on the submarine deck, their lifebelts removed, and then it submerged. The men of one three-masted schooner were left with only one oar in their boat, and for this the master had to beg the others being thrown overboard.

PROMINENT MEN TO SPEAK FOR THIRD LIBERTY LOAN

(By Associated Press.)
WASHINGTON, April 12.—More than 3500 prominent men and women have been engaged for speaking tours on behalf of the third Liberty loan. Here are a few of them:

AUSTRIANS DESERT

(By Associated Press.)
ROME, April 12.—Large numbers of Austrian deserters have taken refuge in the great marshes of the Livenza. They live on fish and such food as they are able to steal from the Italian peasantry. The Austrian army has not sufficient military police to stop the frequent desertions, and men taken from the ranks to act as policemen often desert themselves.

WOMEN RELIEVE MEN

(By Associated Press.)
STOCKHOLM, April 12.—Women war workers as substitutes for men in Berlin have given satisfaction in most lines of work, but have made an unsatisfactory showing as street car conductors, according to a Berlin judge who presided at the trial of a woman who had given a female conductor a box on the ear. He imposed the lowest possible fine, saying that it was notorious that the women conductors lacked patience and ability to refrain from making insulting remarks.

INCOMES TAXES HIGH

(By Associated Press.)
SHEFFIELD, England, April 12.—The collection of income tax from wage-earners is causing many heartburns in the prosperous industrial district around Sheffield. Investigations of the income tax man there have shown many incomes almost fabulous when compared with peacetime wages.

After all allowances are made for children, insurance, expenditure for tools, and other deductions, it is found that individual workmen here will pay tax on incomes ranging up to \$10,000 a year, the highest figures being reached by the so-called "tonnage men," who are paid on the amount of material turned out.

A list of fitters in one Sheffield factory shows incomes ranging from \$2400 to \$3000 a year, while other crafts receive corresponding wages.

Many of the best paid workers are Swedes and Dutchmen, who work their machines to the limit and are not trammelled by any rules or regulations as to amount of output.

STEAMER SUNK

(By Associated Press.)
NEW YORK, April 12.—The Marine Register reports that the British steamship Minnetonka, 13,528 tons gross, was sunk by a German submarine in the Mediterranean during February.
